

Summary

Analytical and detail-oriented MBA graduate with nearly 3 years of experience, now focused on data analytics. Skilled in SQL, Power BI, and Excel, with a strong ability to interpret data, build reports, and support business decisions. Eager to bring insight-driven value to dynamic teams.

Skills

SQL • MySQL • PostgreSQL • Power BI • Advanced Excel • Data Analysis • Business Analysis • Customer Acquisition • DAX • PivotTables • VLOOKUP

Projects

BLINKIT:INTERACTIVE POWER BI DASHBOARD

March 2025

- Built a Power BI dashboard analyzing sales, customer trends, and regional performance to support strategic decisions.
- Transformed and integrated Excel data into Power BI, using DAX to validate and enhance data accuracy.
- Prepared KPI reports tracking sales, item volume, and customer ratings for data-driven insights.
- Analyzed sales trends over time to identify seasonal patterns and opportunities for growth.

SQL-DRIVEN DIGITAL MUSIC STORE ANALYSIS

Feb 2025

- Utilized SQL to extract and manipulate data from eight related tables within customer sales databases using advanced JOIN operations.
- Transformed and filtered data through aggregation and filtering functions to enhance the efficiency and accuracy of the reporting process.
- Analyzed music store data using advanced SQL queries to identify gaps and increase the business growth.

Work Experience

RELIGARE BROKING LIMITED – Operations Executive – Noida, India

May 2018– March 2021

- Analyzed market and client portfolio data in Excel to generate insights and reports, contributing to investment decisions.
- Built 10+ automated Excel dashboards to enhance reporting efficiency and improve stakeholder data access.
- Managed large datasets using advanced Excel tools (PivotTables, VLOOKUP, conditional formatting), reducing manual effort by 30%.
- Ensured 100% data accuracy by regularly cleaning, verifying, and maintaining records across multiple systems.
